

WOODS HOLE OCEANOGRAPHIC INSTITUTION

Dennis J Fox, *Procurement Director*

To Whom It May Concern,

Woods Hole Oceanographic Institution (WHOI) has been selected as the Implementing Organization for the Coastal and Global Scale Nodes (CGSN) part of the Ocean Observatories Initiative (OOI.) Summarized on the web at the [WHOI/Ocean Observatories Initiative](#), OOI is a National Science Foundation funded project to build and maintain ocean observatories for sustained presence at multiple sites. CGSN is one part of the OOI system of systems.

WHOI works with partners Oregon State University (OSU), Scripps Institution of Oceanography (SIO) and Raytheon Company to form the CGSN team. We are soliciting proposals for procurement of p(CO₂) AIR-SEA INSTRUMENTS.

The NSF funding is specifically defined as part of Major Research Equipment and Facility Construction (MREFC.) As such, the award carries specific requirements that flow down from NSF that differ from WHOI's customary terms. Please keep this in mind when developing your response.

The attached solicitation package defines the scope of work, the schedule for the work as well as the schedule and scope of the proposal. To receive consideration, please provide a statement of interest via e-mail to the Contracting Officer no later than 4 PM EDT, February 24, 2011. All administrative and technical questions are to be directed via e-mail no later than March 1, 2011 to the Contracting Officer as well. The CGSN Team will respond via e-mail to your questions no later than February March 7, 2011. Contact made outside of this channel of communications to members of the CGSN team will be considered in violation of the intent of the RFP process and will be reflected in the RFP review. Proposals are due by 4:00 PM EDT on March 18, 2011. Other important dates and solicitation details including contact information are listed in the RFP.

On behalf of the entire CGSN team, I thank you in advance for your time and consideration. The review team looks forward to reading your response.

Sincerely,

Dennis J Fox
Procurement Director/Contracting Officer
Woods Hole Oceanographic Institution
